Professional Summary

Driven final-year BCA student and aspiring Software Developer Intern / Full-Stack Developer with hands-on experience building responsive interfaces in React.js and secure, production-style REST APIs with Node.js and Express.js. Skilled in full-stack development, relational database design (SQL, PostgreSQL, SQLite), user authentication (JWT), and API documentation with OpenAPI/Swagger. Proven track record of independently designing, building, troubleshooting, and deploying full-stack projects end-to-end, backed by a consistent ~80% academic average. Seeking a Software Developer, Full-Stack, or Frontend Development Internship to deliver measurable impact from day one.

Technical Skills

- **Programming Languages:** JavaScript (ES6+), Python, C++
- **Frontend Development:** React.js, HTML5, CSS3, Bootstrap, Responsive Design
- **Backend Development:** Node.js, Express.js, REST API Design & Integration, JWT Authentication, bcrypt
- **Databases:** SQL, PostgreSQL, SQLite, Relational Database Design
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, OpenAPI/Swagger
- **Cloud & Deployment:** Vercel, Render

Project Experience

- **ConnectHub — Social Media REST API** [GitHub](#)
Node.js, Express.js, SQLite, JWT, bcrypt, OpenAPI, Swagger [Live Swagger](#)
 - Architected and shipped an 11-endpoint REST API covering authentication, tweet feeds, followers, likes, replies, and tweet deletion for a social-media platform.
 - Engineered secure user authentication using JWT and bcrypt password hashing, with protected routes and authorization checks restricting operations to their owning users.
 - Designed a normalized relational SQLite schema across five interconnected tables, optimizing queries with joins, subqueries, filtering, and aggregate functions.
 - Authored full API documentation with OpenAPI/Swagger and deployed the service on Render, enabling live, self-service API testing for other developers.
- **Nxt Trendz — React E-Commerce Application** [GitHub](#)
React.js, JavaScript, React Router, REST APIs, JWT, Bootstrap [Live Demo](#)
 - Built a fully responsive e-commerce application spanning product browsing, authentication, product detail pages, filtering, sorting, and cart management.
 - Integrated REST APIs with JWT-secured, protected routes and client-side state management to support a seamless multi-page shopping workflow.
 - Developed reusable, modular React components and implemented loading, success, and failure states to improve usability and long-term maintainability.
- **Repo Scout — GitHub Repository Explorer** [GitHub](#)
React.js, JavaScript, GitHub REST API, React Testing Library [Live Demo](#)
 - Built a GitHub repository discovery tool featuring search, filtering, sorting, pagination, detailed repository views, and a favorites system.
 - Integrated the GitHub REST API and engineered client-side data handling to power an interactive, real-time repository exploration experience.
 - Implemented component-level test coverage with React Testing Library, troubleshooted cross-browser and API integration issues, and deployed the application via Vercel for continuous availability.

Education

- **Bachelor of Computer Applications (BCA)** *Expected Graduation: 2027*
Hindustan College of Arts & Science, Chennai, India *Final-Year Student*
 - Aggregate Academic Score: ~80% across the first four semesters.
 - Relevant Coursework: Data Structures & Algorithms, DBMS, OOP, Web Technologies.

Certifications

- **NxtWave CCBP 4.0 Fellow** — Full-Stack Web Development Program
- **Node.js and Express.js Course** — NxtWave
- **Web Development Fundamentals** — IBM SkillsBuild, July 2025
- **Bootstrap and Flexbox Certification** — NxtWave
- **Pearson MePro English Certification** — Level 8 (B2+)

Achievements

- **1st Prize, BRAIN-CODE 2026** — Technical Competition
- **1st Place, Paper Presentation & Technical Quiz** — College Technical Events
